Plastic & Steel Corrosion Coupon Racks

"GTP" knows that the precise treatment of any system is critical for maximum longevity and it's efficiency. To add a Corrosion Coupon Rack to your system enables you to monitor the effectiveness of your treatment plan. This simple, low cost, addition to your system can help alleviate serious problems that may be developing.

Centrifugal Separators & Accessories

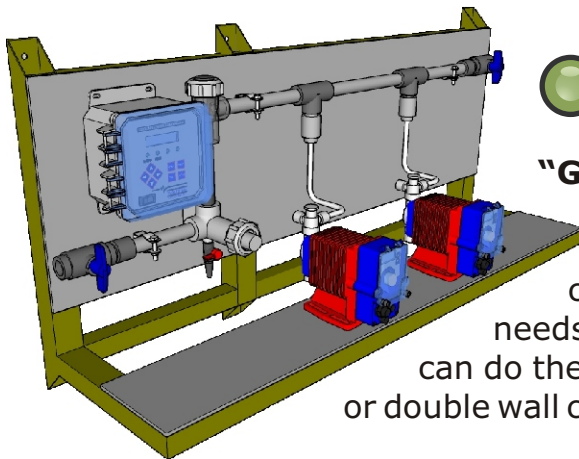

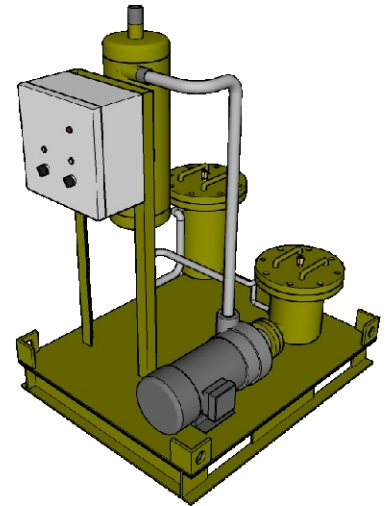

General Treatment Products Separators feature a unique and highly efficient solid separation design with true tangential entry, extended purge chamber, internal centrifugal accelerator and solids deflection hood. Our unique design suppresses fluid turbulence and redirects excess solids back towards trap plate before it exits through vortex tube.

Packaged Separator Systems

"GTP" Separator Systems come complete with a separator, pump, pre-strainer, control panel, solids removal tank, plumbing, electrical and alarm service package. Options include motorized purge kits and tower basin eductors.

Chemical Feed Stations & Enclosures

"GTP" has the capability to accommodate any chemical feed station. With a vast range of products at our disposal, we can build a complete turnkey system designed around your needs. Provide us with your specifications and we can do the rest. Wall / stand or skid mount, mixing batch or double wall containment tanks, "GTP" can build it to order.
